

PERSONAL PROFILE

I have a strong passion for Front End development. I am always willing to research more tools that can help me advance my skill set. I am able to do backend as well since my school mostly uses backend languages to make us well-rounded CS students. I also have strong communication skills and appreciate the feeling I get from collaborative work.

PROFESSIONAL SKILLS

- Web Design
- HTML
- CSS
- Bootstrap
- JavaScript
- TypeScript
- React
- Java
- Git/ Github

FAMILIAR SKILLS

- C
- C++
- SQL
- R

SHAMAR IRELAND

Front End Developer

PROJECTS

Store Front Web Application

- A website I worked on with a team of four including myself for a project which creates a clean and seamless user experience when trying to shop, whether it be for a returning user or a new user.

Covid Updates Web Application

- Covid Web App I aided in creating to get the latest Covid-19 Updates in your local area.

React Notes App

- React App I created to take as many notes from an individual so they can use it as reminders that will be saved for future use.

AWARDS

[Notivize] Best Use of Notivize API

Won a category for the Hackathon of SF Hacks 2021 hosted by SFSU. Our group made an app that sends notifications based on Covid statistics in your area. (See portfolio for more)
